Scheda di controllo elettronica **Electronic Control Card**

MAV 4211 SH

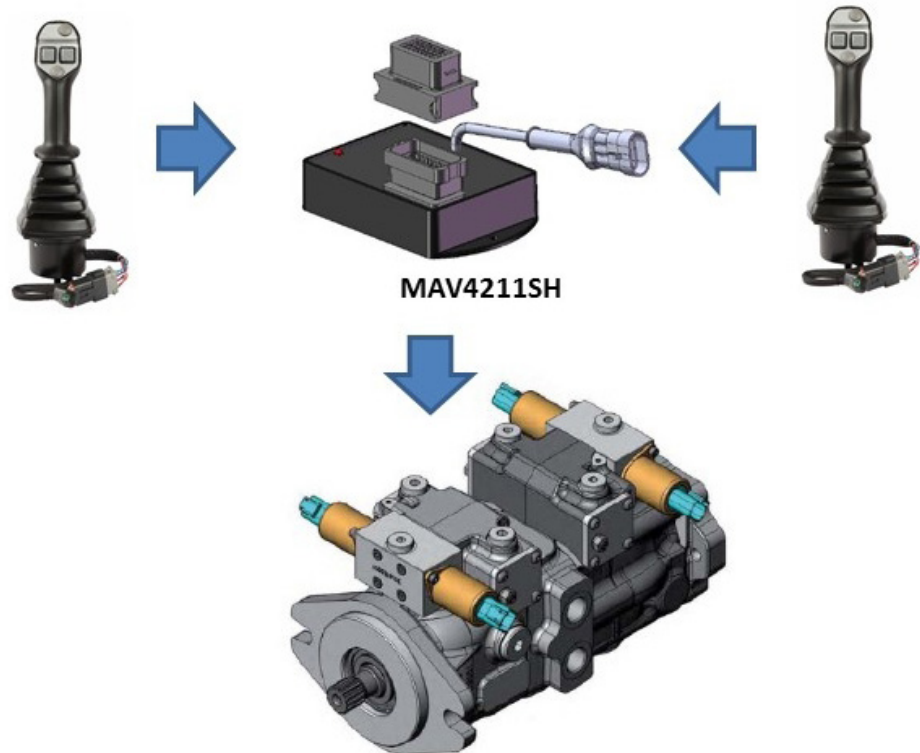

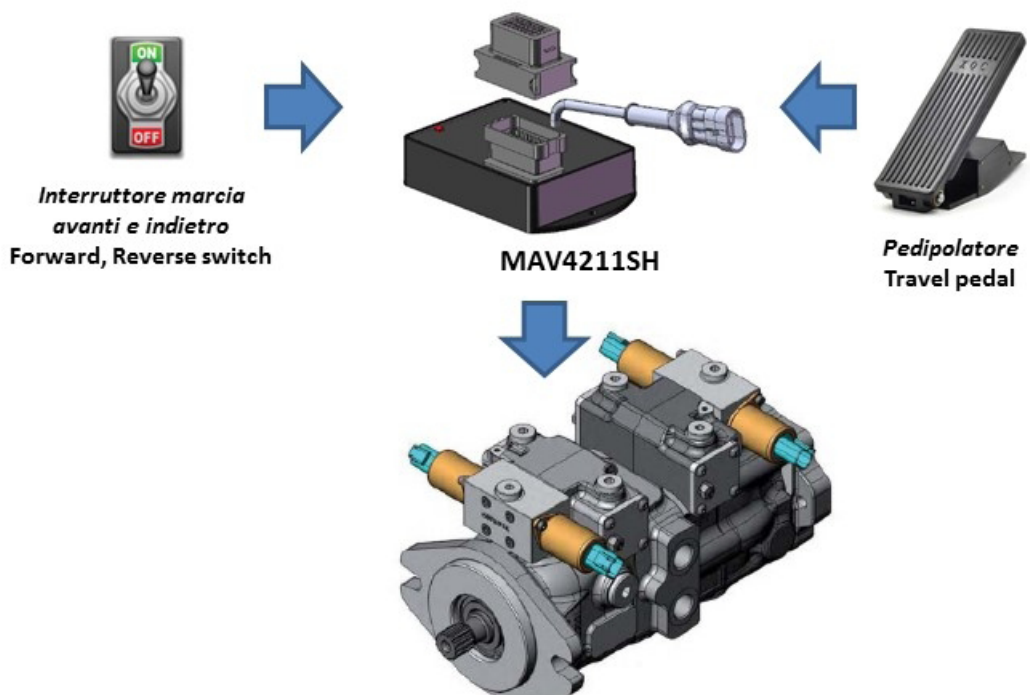

Modalità 1 = Controllo di una singola pompa in circuito chiuso
Mode 1 = Control of one closed circuit pump

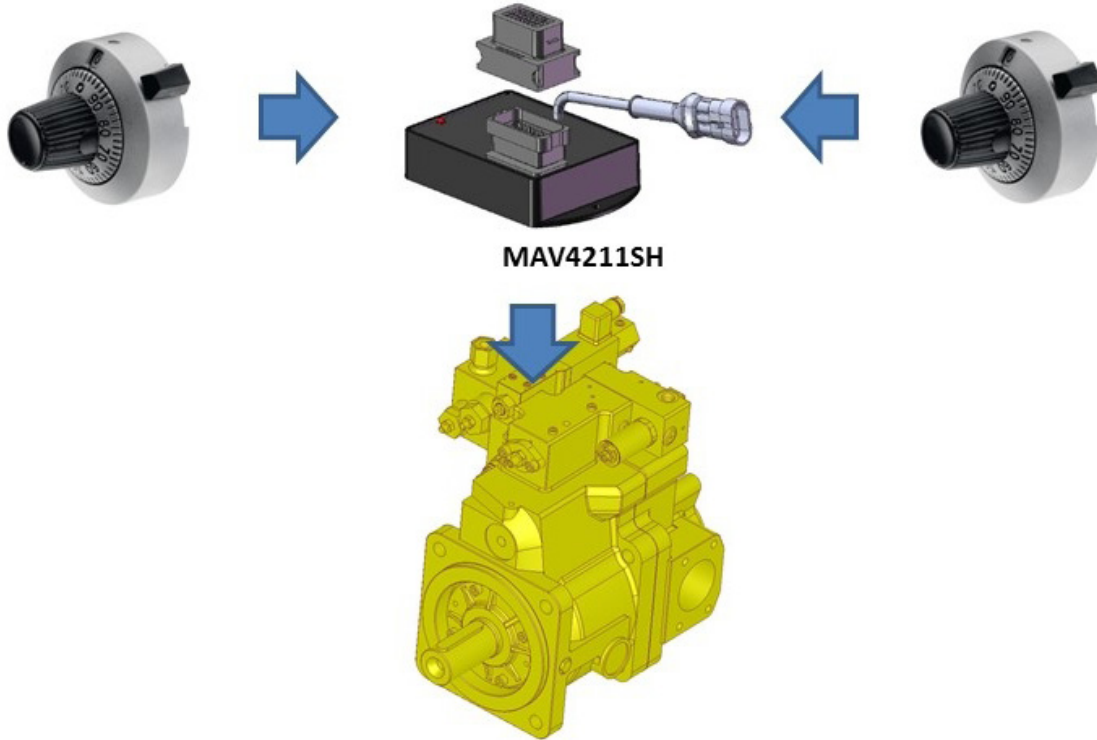

Modalità 2 = Controllo di due pompe indipendenti in circuito chiuso
Mode 2 = Control of two independent closed loop pumps

Modalità 3 = Controllo di due pompe in circuito chiuso in collegamento tandem
Mode 3 = Control of two closed circuit pump in tandem configuration

Modalità 4 = Controllo di pressione e portata di una pompa in circuito aperto
 Mode 4 = Control of flow and pressure of one open loop pump

Modalità 5 = Controllo di una pompa e di uno o due motori in sequenza
 Mode 5 = Control of one pump and of one or two variable displacement motors
