Split Box

SPLIT BOX is our innovative solution that integrates TPV closed-loop axial piston pumps directly into actuators, offering unparalleled compactness without compromising efficiency.

Main features:

- Press formed sheet metal housing
- Arrangements for SAE A and SAE B
- Prepared to be applied on heat engine with SAE B interface + adapter ball
- Compactness

General Information

Max input speed (RPM)	3500
Max input torque (Nm)	500
Max Input Power (KW)	180
Working Temperature (°C)	-20/+100

DIRECT PTO "A" with HEAT ENGINE

(Nm)	500
total max torque relative (Nm)	358

MOTION SOCKET "B" connected to the belt

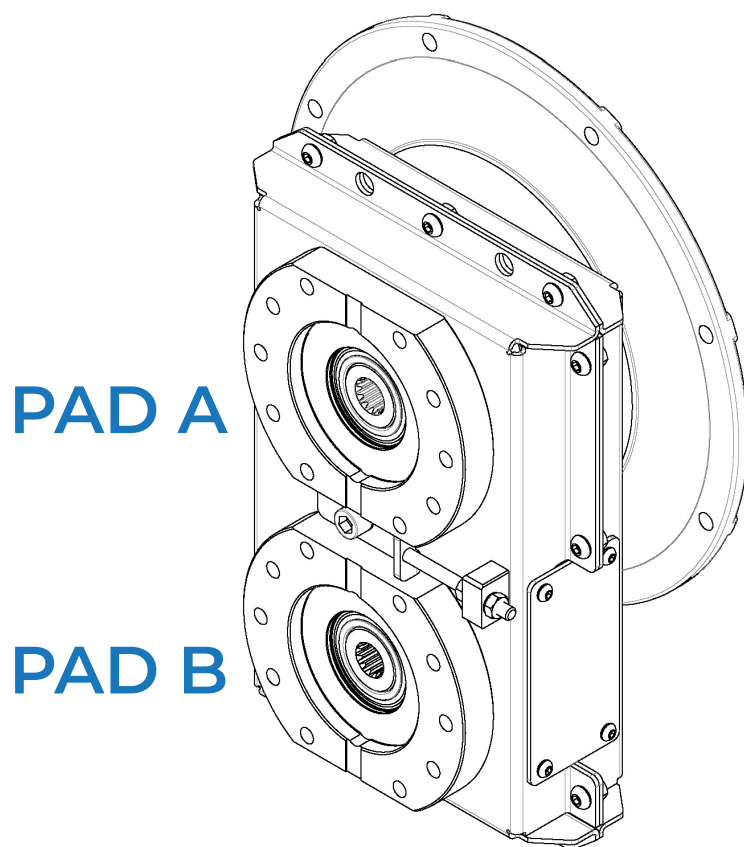

COUPLE max (Nm)	142
-----------------	-----

Split Box

Space-Saving Design: By combining essential components, SPLIT BOX significantly reduces the footprint of your systems, making it ideal for applications where space is at a premium.

High Efficiency: Despite its compact size, SPLIT BOX maintains the high efficiency you've come to expect from our TPV closed-loop axial piston pumps, ensuring optimal performance.

Perfect for Mobile Remote Control Machine: With its streamlined form and robust performance, SPLIT BOX is perfect for remote control applications, offering precise and reliable operation in even the most demanding environments.

HOUSING AVAILABLE:

**SAE 3
SAE 4
SAE 5
CUSTOM**

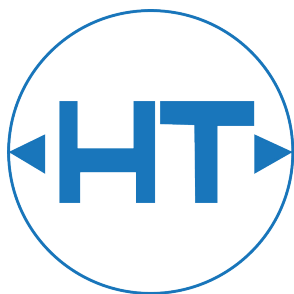

OUTPUT FLANGE AVAILABLE :

SAE A

SAE B

OUTPUT SHAFT AVAILABLE:

**Z9 16/32"
Z13 16/32"
Z15 16/32"**
